

PERSONAL INFORMATION

I am a friendly, open, positive and curious person. I am excited about technology and I want to evolve in the field of web development, so that in the next two years I can become an exceptional Front-end developer.

VOLUNTEERING SERVICES

- I had the chance to be part of a project to raise awareness of the problems and needs of the environment, carried out in the south-eastern area of Turkey. Our tasks, of the volunteers, were thought in order to obtain a more favorable environment for the turtles that lay their eggs in that area. The program bore fruit, so that, over the period of several months, and with the participation of several volunteers from all over Europe, the survival rate of the turtles in the area increased considerably.

HOBBIES

-Knitting, cooking, socializing with friends, cycling.

KNOWN LANGUAGES

- Romanian - native
